PROJECTS

PORTFOLIO PAGE - includes list of my main projects along with description and short application features videos.

JEWELRY SHOP - REACT

`DEMO`

Tech stack: React, React Router, React-spring, StyledComponents, RWD, Contentful, EmailJS, Material-UI.

About project: Application was created for educational purpose. As it was my first big project, I had opportunity to learn how to manage clean files tree. In the application I decided to relay on ReactHooks, where my absolute favorite turned out to be useContext. It helped me to avoid passing props through multiple elements of components tree and therefore save time and keep code clean. Element of the application I am most proud of is filter menu, where you can choose multiple categories to find desired product as well as cancel chosen category to refilter products again.

JEWELRY SHOP - REDUX

`DEMO`

Tech stack: React, Redux, React Router, React-spring, Styled-components, RWD, Contentful, EmailJS, Material-UI.

About project: Based on my first project I decided to validate Redux capability, therefore I refactored previous code.

MOVIE APP

`DEMO`

Tech stack: React, Redux, React Router, Firebase, axios, StyledComponents, RWD.

About project: Application displays list of movies based on category so I used that as an opportunity to create pagination. To enhance the project, I decided to add simple blog with comments section maintained with Cloud Firestore.

EXPERIENCE

JUNIOR SOFTWARE DEVELOPER	Issuefab AB - Uppsala
Apr 2021 - Aug 2021	- implementation of modern application view TypeScript, Stencil.js
	- creating demo of new application for companies to collect all payments for their online services to one place and one bill. TypeScript, Stencil.js

Sep 2015 – Dec2017	-comprehensive book keeping and payroll administration

EDUCATION

MEDICINAL CHEMISTRY	University of Silesia - Katowice
Oct 2010 - Jul 2015	master degree

REFERENCES

TOMASZ UNUCZEK Manager, PricewaterhouseCoopers SDC

"During her employment at our Company Jagoda worked on a wide variety of assignments during which she proved to be a hardworking and conscientious member of staff who approached her work with the high level of integrity required."

BOŻENA KOSTYRA-MRUKWA CEO, Accounting & Finance Center

"I was very impressed that despite a lack of professional education and experience she approached each task with the same level of dedication and showed ability to complete all work assignments on time. She proved that she is very quick at learning, hard-working and willing to take over new challenges."
