I am a junior front-end developer. For the last year and a half, I deepen my knowledge of Java Script and React. I am ambitious and hard-working person focused on developing my competence.

SKILLS

Technologies

`HTML` `CSS` `SASS` `RWD` `BOOTSTRAP` `JAVASCRIPT` `REACT` `REDUX` `REST API` `STENCIL` `TYPESCRIPT`

Tools etc.

`GIT` `NPM` `JIRA` `SLACK` `EMAILJS` `FIREBASE` `CONTENTFUL` `WEBPACK`

LANGUAGES

ENGLISH - very good understanding both written and spoken

SWEDISH - basic understanding

POLISH - native speaker

PROJECTS

PORTFOLIO PAGE , that includes list of my main projects along with description and short application features videos.

JEWELRY SHOP - REACT
DEMO

Tech stack: React, React Router, React-spring, Styled-components, RWD, Contentful, EmailJS, Material-UI.

About project: Application was created for educational purpose. As it was my first big project, I had opportunity to learn how to manage clean files tree. In the application I decided to relay on ReactHooks, where my absolute favorite turned out to be useContext. It helped me to avoid passing props through multiple elements of components tree and therefore save time and keep code clean. Element of the application I am most proud of is filter menu, where you can choose multiple categories to find desired product as well as cancel chosen category to refilter products again.

JEWERLY SHOP - REDUX
DEMO

Tech stack: React, Redux, React Router, React-spring, Styled-components, RWD, Contentful, EmailJS, Material-UI.

About project: Based on my first project I decided to validate Redux capability, therefore I refactored previous code.

MOVIE APP
DEMO

Tech stack: React, Redux, React Router, Firebase, axios, Styled-components, RWD

About project: Application displays list of movies based on category so I used that as an opportunity to create pagination. To enhance the project, I decided to add simple blog with comments section maintained with Cloud Firestore.

EXPERIENCE

JUNIOR SOFTWARE DEVELOPER
Apr 2021- Aug 2021

Issuefab AB - Uppsala internship
-implementation of modern application view TypeScript, Stencil.js
- creating demo of new application for companies to collect all payments for their online services to one place and one bill. TypeScript, Stencil.js

Jan 2019 – Sep2021

ChildAcademy - Uppsala

PROCESS SPECIALIST
Dec 2017 - Nov 2018

PricewaterhouseCoopers SDC - Katowice
- audit of financial statements

ACCOUNTANT
Sep 2015 - Dec 2017

Accounting & Finance Center - Katowice
-comprehensive book keeping and payroll administration

EDUCATION

MEDICINAL CHEMISTRY
Oct 2010 - Jul 2015

University of Silesia - Katowice
- master degree

REFERENCES

Tomasz Unuczek
Manager, PricewaterhouseCoopers SDC

"During her employment at our Company Jagoda worked on a wide variety of assignments during which she proved to be a hardworking and conscientious member of staff who approached her work with the high level of integrity required."

Bożena Kostyra-Mrukwa
CEO, Accounting & Finance Center

"I was very impressed that despite a lack of professional education and experience she approached each task with the same level of dedication and showed ability to complete all work assignments on time. She proved that she is very quick at learning, hard-working and willing to take over new challenges."
